## SEM Products, Inc. News Release

### SEM adds a unique Chip Guard to the PRO-TEX™ line.

*Rock Hill, SC*– SEM is pleased to announce the availability of **39824 PRO-TEX CHIP GUARD**. **39824** is an addition to the **PRO-TEX** product offering, which also includes a Truckbedliner System.

**39824** is a urethane-based coating designed to protect lower panels that are prone to chipping and corrosion. The formulation provides excellent film build, adhesion and chemical resistance.

Unlike the competition, this innovative new chip guard can be tinted with urethane as well as enamel systems to provide excellent color match. **39824 PRO-TEX CHIP GUARD** is also paintable with most paint systems in 30 minutes, and offers the ability to match OEM textures accurately.

**39824** is a great addition to the **PRO-TEX** line of products. For more information on SEM Products and Services, call 1-800-831-1122 or visit us at [www.semproducts.com](http://www.semproducts.com)
